

HOOD FILTER SOLUTIONS

Hood Filter Solutions is a division of Industrial Steam Cleaning, Inc. We have been serving the Michigan food service industry for over 28 years. We offer an affordable and professional filter exchange program to restaurants, commercial kitchens and corporate facilities.

"Since using Hood Filter Solutions we have seen a dramatic decrease in the amount of injuries associated with removing, cleaning and replacing the hood filters. Each week filters are replaced in a timely manner with extremely clean filters and have reduced the amount of grease build-up in our vents. One of the best decisions we have made was to use Hood Filter Solutions. Highly Recommended!"

Dave Finley
Director of Food Safety & Compliance
National Coney Island

ENVIRONMENTAL

Environmental—No more washing the filter grease down the drains, which is a violation of local & state health and safety codes. ZERO worry about polluting waterways with grease laden water.

Saving the environment one filter at a time.

WHY USE HFS FILTER EXCHANGE PROGRAM

Employee Morale—We save your staff the headache of cleaning filters!

Clogged Drains—No more clogged drains from cleaning filters in your sinks, dishwashers, or behind your building.

Improved Efficiency— Clean filters allow the fans to draw more air across the cooking line which decreases smoke and heat.

Save Labor Costs— No more labor cost to remove and clean the hood filters.

Safety— No more employee injuries due to removal, or scrubbing of filter s.

Routine Scheduled Maintenance— We exchange your filters on a weekly, biweekly, or monthly basis to meet your needs.

Professional & Courteous— For your safety HFS drivers will arrive in clearly marked company vehicles and in uniform.
